

I Get Pierre Bordieu!

I'm reading Bordieu,
I'm reading Bordieu,
And it's making me go out of my mind.
I ask my teacher
'Bout Pierre Bordieu,
And her answer is just not very kind.
She says I should go back and read him once again.

I'm reading Bordieu,
I'm reading Bordieu,
His convoluted sentences are absurd.
I ask my roommate
'Bout Pierre Bordieu,
And he solves my problem with just one word.
And now it all makes sense to me and now I'm feeling rather free because

I get Pierre Bordieu,
I think I get Pierre Bordieu,
I really think so! (X4)

No doxa, habitus, disposition,
No ethos, hexis, hysteresis for me.
Now I know they all are elements of culture.
Now I know they all refer to parts of culture.
Culture.

I get Pierre Bordieu,
I think I get Pierre Bordieu,
I'm shouting hurray!

Because Pierre Bordieu
Envisions culture like his mentor Althusser.

But Pierre Bordieu
Over-complicates his efforts to convey.

His ideas of culture
That when parsed we come to realize are passe.

I get Pierre Bordieu,
I think I get Pierre Bordieu,
I really think so! (X4)
